

PRODUCT CATALOGUE

RADIATION PROTECTION PRODUCTS

Protective apparel used in interventional radiology and cardiology, Cath labs, x-ray assisted surgery and general radiology.

01 | SKIRT & VEST

ULTIMATE PROTECTION FOR USER

- Significant overlap at the front opening of the vest as well as skirt (waist area)
- Added back & shoulder protection
- Full overlap on skirt circumference for added lower body protection

02 | DOUBLE-SIDED APRON

COMFORT. FLEXIBILITY. GREATER COVERAGE.

- Complete overlap at the front (vest & skirt)
- Velcro closure for a perfect fit
- Flexible belt to balance load on back & shoulders

03 | BACKSAVER APRON

REDUCES LOAD. SUPPORTS LONGER HOURS.

- Lifts and supports the back panel to reduce load on shoulders, back and spine
- Helps in better weight distribution for longer working hours
- Available in Skirt & Vest, Double-Sided and Coat Apron as well

04 | COAT APRON

THE GOLD STANDARD FOR X-RAY ROOMS.

- Complete frontal protection
- Smart and flexible insert with velcro closure
- Built-in shoulder relief pads
- Optimised weight distribution to reduce load on back and shoulders

05 | SURGICAL APRON

MAKING SURGERIES EASIER.

- Complete frontal protection
- Easy drop off from under a surgeon's scrubs
- Optimised weight distribution
- Designed for comfort and flexibility during long procedures
